Subject: ACS abstract
Attachments: Knappe PFAS.docx

Hi all,

I was invited to give a presentation at the Fall ACS meeting. I thought I would give an update on what is going related to the PFAS contamination associated with Chemours in NC. I may also mention in a slide the Parkersburg data Andy presented at Northeastern U.

Let me know what you think about the attached abstract. I get 300 words, which is where this abstract sits right now.

I am thinking I will list all of you as co-authors. Am I missing someone?

This presentation will not/cannot include any data from the NIH health study.

Due tomorrow (Monday).

Thank you,

Detlef
